

Official Side Event of the Berlin Energy Transition Dialogue 2019

Guided tour: Renewable Fuels

Thursday, 11 April 2019 | language: English | subject to change

Electrification and digitalization are seen as the future of the mobility sector. But what happens with sectors which are not as easy to electrify? How can those still meet international climate targets? Find the answers by joining us and discover a new generation of fuels.

Please note: Due to safety reasons, some sites can only be visited with flat and sturdy shoes. Changeable weather conditions require weatherproof clothing. Packed lunches will be provided. Filming and photography are not allowed unless otherwise indicated at the site.

Agenda	
09.00 am	<ul style="list-style-type: none"> • Bus transfer to biogas plant Spandau • Welcome and short introduction to site visits
9.30 am	<ul style="list-style-type: none"> • Visiting BSR's green vehicle fleet and waste-to-energy plant <p>Berlin's public cleaning service BSR puts the concept of sustainable mobility solutions into practice. Their green street cleaning vehicle fleet uses renewable fuels and alternative drive systems based on both – biogas and electric drive. The biogas is derived from the company's own waste-to-energy plant, which will be visited during the Guided Tour.</p> <p><i>Guide: Wilhelm Winkelmann, Plant Manager, BSR</i></p>
12.00 am	<ul style="list-style-type: none"> • Bus transfer to Prenzlau
2.00 pm	<ul style="list-style-type: none"> • Visiting Enertrag's hybrid power plant <p>Visit to the world's first industrial-scale hybrid-energy plant built by ENERTRAG in Prenzlau, including company presentation and discussion. The plant combines wind energy sources and biogas to provide hydrogen for vehicles and generate electricity and heat.</p> <p><i>Guides: tbc</i></p>
